Reviews

As a client focused broker, everything we do is for our clients. Our products, technology, instruments, tools and much more are designed and delivered to add value to our clients.

This is why hundreds of thousands of traders and partners from around the world choose INFINOX for their trading journey.

“Trading within a few minutes” - William Thomas

“I really like that I was able to register on the platform quickly and start trading within a few minutes. I get my withdrawals at the right time. Thank you.”

“It allows me to earn when others earn” - Jack Bailey

“IX social is one of my favorite features when using INFINOX. I mean, they have many useful tools, but this one is really out of the ordinary. It allows me to earn when others earn using my methods. Fantastic!”

“A reliable broker” - Muhanned

“A reliable broker with a nice amount of assets, handy trading platforms, variety of payment methods and regulation.”

“The best customer support” - Ahmed Abouzid

“What I like the most is that Infinox has one of the best customer support to be honest, they reply too fast and they contacted me in person on whatsapp as well. I like it. Also, the IX Social app is something worthy and I am still new here (one month) but in general, it is a good experience until now and I wish the best for INFINOX team.”

“Even more functionality than before” - Montez Morado

“Apparently the broker has revised the IX Social app. And now it has even more functionality than before. As a strategy provider I like the changes. They allow me to attract more copiers thus creating more revenue.”

“I have a very good feeling about this” - Damilare

“The moment I ran into their IX ONE platform and discovered the possibilities and capabilities, what I can do with it and tried it out, I stopped using MT platforms altogether. It’s definitely a nice change for me. Great platform and I have a very good feeling about this.”

“All the necessary conditions that I needed” - Ayoob Naim

“All the necessary conditions that I needed for my trading style this company offering. Namely tight spreads are due to the direct execution; vast list of assets; and is high enough leveraging.”
