How does a **PAMM** work?

PAMM or Percentage Allocation Money Management allows investors to allocate funds to a qualified trader or money manager of their choice.

For PAMM investors, you can deposit funds enabling that your chosen money manager can manage and trade with. If the money manager generates returns, you will receive a share of the profits. The profit share paid by the money managers can be seen on the PAMM money manager link. Money managers will receive performance fees in return for managing your account.

Steps to becoming an investor

1. To become a PAMM investor, click here, enter your details to open a trading account and enter in the 'Refer code' field the PAMM investor account number you wish to be connected to e.g.9012649PAMM.

<https://www.infinox.com/fsc/en/registration/live-account>
